Calling all Developers.

Contego Cyber Solutions, a division of Quantech Services, is a trusted/unbiased partner that delivers best-in-class information assurance and cyber security solutions, products and services to government and commercial customers across multiple capability areas.
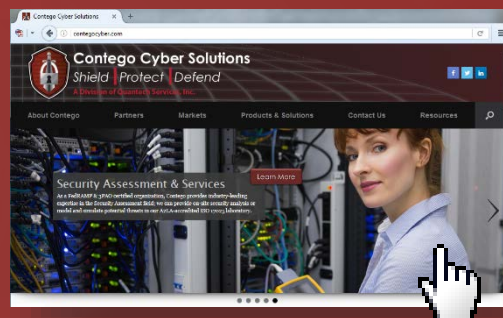

Attention Microsoft Technology Professionals!

- Contego Cyber Solutions exemplifies a clear understanding of network vulnerabilities and actionable, comprehensive recommendations. We are a seasoned, flexible small-business that is dedicated to providing you the customized cyber and network security services you require.
- ✓ **IT Pros:** Ensuring security is embedded upfront during hybrid system networks and deployments.
- ✓ **Developers:** Providing a customized security action plan for both web and mobile applications.
- ✓ **Solution Providers:** Delivering expert solutions to accredit your cloud infrastructures.
- ✓ **Consultants:** Offering qualified and accredited cyber security expertise.

Specialized Security Services

- Security Controls Gap Analysis (NIST 800-53 and 800-82)
- Wireless Penetration Testing and Resolution
- Vulnerability Assessments and Reports
- Action Plans and Expert Recommendations
- Web App Penetration Testing and Resolution

Qualifications

- Certified Professionals (CISSP, CEH, etc.)
- Verified procedures: A2LA accredited as an ISO 17020 Inspection Body for cloud services and ISO 17025 as an IT Laboratory for security controls.
- Experienced in HIPAA, PCI, EFT, FISMA and Classified Systems

Our Approach & Tools

- We will deliver a clear understanding of your network vulnerabilities and a report on how to fix them.
- Work is conducted using formalized, audited and accredited procedures.
- Our team operates on-site and off-site and ensures that business operations are not interrupted.
- Testing and simulation is performed in a secure, state-of-the-art security laboratory in Colorado Springs, CO.
- Our experts use a combination of proprietary and commercial tools including, Nessus, MetaSploit and OWASP.

Contego's got you covered.
