Who We Are

Contego Cyber Solutions is a Division of Quantech Services, Inc.; a professional integrated Cyber Security Division providing superior products and services focused on end-to-end systems security. Contego provides a wide array of technical and support capabilities to the Department of Defense (DoD), Federal Agencies and commercial organizations.

Contego provides expert consulting services in the area of Cyber Security, Information Assurance (IA) and the underlying disciplines of Information Systems Security (INFOSEC), Cloud Security and Cryptographic (COMSEC) engineering, integration and implementation. Contego performs System Security Engineering as a specialty discipline under a Systems Engineering approach.
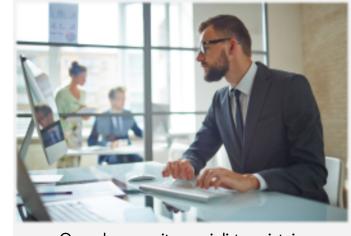

Certifications

Contego prides itself in acquiring and maintaining the industry's best available certifications and accreditations so we can work better and smarter in serving you and your business. It is important to us that we deliver the right solution to customers using a cost effective approach.

A2LA ACCREDITED

HIPAA TRAINING.NET — CHSE CERTIFIED HIPAA SECURITY EXPERT

FedRAMP℠

With both ISO 17020 and 17025 accreditations, Contego is able to execute exceptional support for both Government and Commercial agencies. Contego can evaluate your true system security on-site or in our accredited lab to accurately recommend improvements and help you maintain the highest security for your critical systems.

Our cyber security specialists maintain awareness of new, critical cyber security threats including zero days, advanced persistent threats, known backdoors and current social engineering campaigns; striving to understand the entire threat landscape before system implementation. We conduct thorough risk assessments to determine the security baseline for each system. Cybersecurity risk assessments incorporate appropriate tests and mitigations for new threats along with the continuous monitoring of the effectiveness of previously-applied mitigations.

Our Offerings

Contego operates in both Commercial and Government markets and specializes in five major Product & Solution areas:

◊ **Advanced Security Operations**

◊ **Communications Security**

◊ **Governance Risk & Compliance**

◊ **Identity & Asset Management**

◊ **Security Assessment & Services**

Contego has a proven track record in program management, coupled with an excellent understanding of Systems Development, Systems Security Lifecycle, Computer Network Defense and Boundary Protection. As Information System Security Engineers (ISSE), we evaluate targeted networks and systems and apply technical and non-technical countermeasures and safeguards tempered with reasonable and reliable risk management techniques.

We exceed customer expectations through an experienced team of qualified and certified security professionals, who have provided technical services to the Department of Defense, Federal Government and private companies **for over 30 years.**

Contact Us

We sincerely appreciate your interest in our business solutions and look forward to hearing from you. Please feel free to get in touch via the contact information below and we will reach out to you as soon as possible.
